A need for upgradation of Government Industrial Training Institutes (ITIs) has been felt in view of development of new technologies and emerging requirements of the industry. Government of India has accordingly taken up upgradation of all Government ITIs in the country as follows:

a) Upgradation of 100 ITIs through domestic funding at a Cost of Rs.160 crore since 2005-06.
b) Upgradation of 400 ITIs through World Bank assistance at a cost of Rs. 1581 crore since 2006-07.
c) Upgradation of the remaining 1396 ITIs by providing an interest free loan of upto Rs.2.5 crore per ITI in Public Private Partnership mode with effect from 2007-08.

Close involvement of the industry has been envisaged in the upgradation of these ITIs. Accordingly, Institute Management Committees (IMCs) are being constituted to accomplish the task of upgradation. IMCs are being headed by an Industry Partner. There are four other members from the Industry on the I.M.C. The remaining five members are from the Government and Principal of the ITI is the member secretary of the IMC.

The task of upgradation of these ITIs is scheduled to be completed by the end of financial year 2011-12.
